\$349 ^{+GST}

Unit as shown: 2m x 600d x 1800w
with powdercoated steel inserts

The upright is perforated at a pitch of 50mm allowing boltless mounting of the beams. The tapered shape of the hook guarantees a stable and rigid design, even without back bracing.

Technical Spec Midi Unit Racking

- **FRAMES** - Standard sizes of 2m & 2.4m high and depth 400, 600, 900
- **BEAMS** - sizes available 500, 900, 1200, 1800, 2400
It's important when choosing the beam that you take into account the product to be stored on the shelving. Please check the load rating chart.
