

# LONGSPAN & TALL WORKBENCHES

Light to Medium Duty | Adjustable | Versatile

✓ **STRONG**  
Built to Last

≡ **FLEXIBLE**  
Adjustable Design

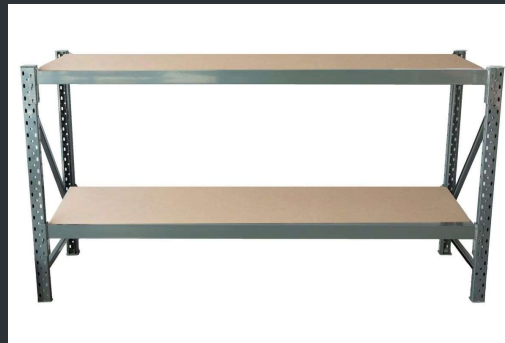

★ **RELIABLE**  
Trusted Support

Our workbenches are the perfect addition to any workshop, garage or shed. Built from our Longspan shelving system, they are available in different heights, depths and lengths — custom made to your needs. Add a second shelf for extra storage and stability, with a choice of timber or steel inserts.

**STEEL INSERTS**

Powder-coated steel inserts — durable and hygienic for demanding workshops and industrial environments.

**TIMBER INSERTS**

Cost-effective timber inserts — great for general workshop use. Support beams available for 600mm & 900mm deep shelves.

## Key Features
